Senior Web Developer <i>Biz Lighting Pvt Ltd</i>	Jul 2023 – Oct 2024 <i>Gurgaon, India</i>
Software Developer <i>Cybrom Technology</i>	May 2022 – May 2023 <i>Bhopal / Bangalore, India</i>

PROJECTS

Wednesday.is – Agency Website	2025
- Developed responsive UI components and interactive frontend experiences for the Wednesday Solutions company website using modern React.js frontend architecture. - Implemented smooth animations and page transitions using Framer Motion to improve user engagement and storytelling experience. - Worked on responsive layouts, reusable design systems, and optimized frontend performance across desktop and mobile devices. https://www.wednesday.is/	
ArborXR – SaaS Platform UI Development	2025
- Contributed to frontend UI implementation and responsive web experiences for a SaaS XR device management platform. - Built reusable React components, responsive layouts, and animation-driven sections aligned with modern UI/UX standards. - Improved visual interactions and smooth transitions using Framer Motion and optimized rendering techniques. https://arborxr.com/	
Conduit Commerce – Shopify Storefront Platform	2025
- Led frontend development for 70+ Shopify furniture and rugs storefronts targeting US-based e-commerce brands. - Built reusable Shopify Liquid sections, templates, snippets, and custom storefront components based on business requirements and UX improvements. - Integrated Shopify GraphQL APIs for product management, navigation generation, and storefront automation. - Created responsive storefront experiences with optimized UI flows improving customer engagement and conversions. - Implemented CI/CD deployment workflows using GitHub Actions and Azure DevOps.	
Eco LED Lightings & Biz Lighting	2023 – 2024
- Designed and developed modern e-commerce storefronts for US-based lighting and home decor brands selling decorative and premium lighting products. - Migrated Shopify storefront experiences into React.js applications using Shopify GraphQL APIs and headless commerce architecture. - Integrated HubSpot and Klaviyo for content management, email marketing, and customer engagement workflows.	

- Implemented analytics and tracking using Microsoft Clarity, GTM, and GTag for conversion optimization and customer behavior analysis.
- Improved Core Web Vitals score from 53 to 89 through frontend optimization, lazy loading, image compression, and rendering improvements.

Cybrom EdTech Platform

2022 – 2023

- Developed responsive React.js web application for an EdTech learning platform with dynamic UI components and optimized user experience.
- Converted Figma-based UI/UX designs into production-ready responsive frontend interfaces.
- Worked on reusable frontend architecture, responsive layouts, forms, and interactive student dashboards.
